EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Stephen Heller on July 22, 2004.

The application has been amended as follows:

- In claim 12, line 3, "two" has been deleted; and
- In claim 12, line 15, "the" has been changed to "a".

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 1-24 are allowed over the prior art of record because the prior art of record does not teach or fairly suggest the entire combination of elements set forth including the entire combination of elements set forth including a line guide block mounted on the transverse shaft having a single continuous helical groove and the block having a pawl for engaging the groove. The cited prior art, namely Elsinger '884 and Rhodes '969, disclose a single helical groove on a shaft but does not teach the line guiding mechanism to be mounted on the shaft as required by claim 1, lines 20-21 and claim 12, lines 12-13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
